

### Our Styles Are Correct to the Dot

If you still persist in wearing Negligee Shirts in the Fall, here's a great picking, as we have the sweetest line ever shown here. Also stiff bosoms, which are the correct shirt for this fall.

This week we are pushing all kinds of Shirts. Push into the

### TERSELY TOLD.

A. A. Seraphic, immigration agent of the port, who has been on a fishing trip of several days, has returned to the city.

Men in the employ of the government yesterday began screening the government building, and although the work was only commenced in the forenoon, a large number of the windows had been screened before night.

The members of the relief committee appointed at the meeting Monday afternoon will meet today at the office of Dr. Pierpont at 10 a. m. to map out a plan of action. All persons who are immune, and who desire to enter the service as nurses, are also requested to apply to Dr. Pierpont at as early a date as possible.

Herman Pinney, operator at the Western Union Telegraph Company, who has been ill some time with yellow fever, was on the streets yesterday afternoon and will resume his duties this morning. The Western Union will pay all expenses of Mr. Pinney during his illness, and in addition it has carried him on the pay roll during that period.

The police were kept busy yesterday serving warrants upon persons who had failed to comply with the orders of the sanitary inspectors to clean up their premises. After several notices had been served without any attention being paid to them, the inspectors made warrants against the delinquent parties, and the cases will come up in the municipal court this morning.

They never disappoint—Blue Ribbon Lemon and Vanilla Extracts. At all grocers.

#### A Shrewd Poet.

There is a story told of a poor Greek poet who lived in Rome at the time of the Emperor Augustus. It shows us that wit often succeeds where merit fails.

The poet was anxious to gain favor with the emperor. Every morning he waited at the palace door, and as the emperor passed out the poet presented him with a verse or an epigram that he had composed. The emperor accepted the poetry, but never paid the poet anything. Indeed, his presumption rather amused the emperor, and, being one day in a merry humor, he wrote a verse himself and handed it gravely to the poet, who waited for him, as usual, at the gate.

The poet, with ready wit, pulled out his purse and emptied the two or three coppers it contained into the emperor's hand.

"Ah," cried he, "there should be more, but I give you my ability! If I were as rich as you, great Caesar, I would pay a much greater price for verses."

And it is pleasant to be told that the emperor thought the joke worth 1,000 crowns.

## TO RAISE \$5,000 FOR CLEANING UP CITY

Joint Meeting of Two Committees Was Held and Mosquito Fight Was Discussed.

A joint meeting of the citizens' committee appointed at a meeting at the city hall on Monday last, and the Chamber of Commerce appointed at a recent meeting of that body, was held at the city hall yesterday afternoon. Mayor Bliss presiding.

Upon motion, W. C. Jones, secretary of the Chamber of Commerce, was elected secretary of the joint meeting.

A resolution was unanimously adopted directing the secretary to draw up an appeal, addressed to the citizens of Pensacola, for funds to clean the city and also for the care of the indigent of the city who may be stricken with disease. It having been stated by Mayor Bliss that funds for these purposes are not available in the city's treasury.

Upon motion, the Mayor and the President of the Chamber of Commerce were authorized to appoint a committee of five to solicit this fund, of which committee the Mayor and the President of the Chamber of Commerce shall be members. The following committee was named: Wm. H. Knowles, Mayor C. H. Bliss, John E. Stillman, Sol Chan and W. C. Jones.

Mr. Philip K. Yonge was unanimously elected treasurer of the fund to be raised.

Mayor Bliss stated that \$5,000 would be necessary to do the work which the situation necessitates.

Upon motion, unanimously adopted, the city was requested to handle the fund to be raised, under the direction of the joint committees.

W. K. Hyer, Jr., was appointed a committee of one to confer with the state health authorities, advising them of the action of the meeting.

The meeting then adjourned at three o'clock today at the city hall.

Bad blood and indigestion are deadly enemies to good health. Burdock Blood Bitters destroys them.

**Names in Ireland.**  
The Cornish names in Ireland are few and far between, but evidence of an extensive Welsh immigration is forthcoming in the fact that at the present day the name Walsh—pronounced Welsh—is to be met with in nearly every county in Ireland. The curious settlement of Welsh colonists in the baronies of Forth and Bargo, in County Wexford, who maintained their ancient manners, customs and language for some 400 years, no longer deserves the title of a "peculiar people," given to them by S. C. Hall in 1841, the Forth dialect having practically died out, though many of the old family names—Codd, Shott, Rossiter and Walsh—are still very common in the neighborhood.

The Huguenots were granted letters of naturalization in 1674 and founded colonies in Dublin, Kilkenny, Portlanning, Waterford, Cork and Lisburn. Many prominent, distinguished Irishmen have borne and still bear Huguenot names, among whom mention may be made of the La Touche, Trenches, La Pevres, Lefroy and Lefanus, of the last of whom one may say, in the best sense, that they are Hibernian Ispis Hiberniores.—London Spectator.

#### A Patient Young Man.

A clergyman was praising the virtue of patience. "We may have industry," said he, "sobriety, ambition, all the virtues that make for success, and yet without patience we will accomplish nothing. A young man was overheard on a street corner the other night reproaching a young girl. That young man was patient. He had so highly developed this excellent quality that I shall not be surprised some day to see him a millionaire, a college president or even a bishop."

The young man said, as the young girl drew near him on the corner: "Wait a time you have kept me waiting."

"The girl tossed her head. 'It is only 7 o'clock,' she said, 'and I didn't promise to be here till a quarter of 8.'"

"The young man smiled a calm and patient smile."

"Ah, yes," he said, "but you have mistaken the day. I have been waiting for you since last evening."

### SAFELY THROUGH MOTHERHOOD WITHOUT PAIN.

What a wonderful message of hope and escape from suffering these words carry to that woman who is dreading the hour that shall proclaim her Motherhood. Perhaps for her it is the first time God has blessed her with what awe and mystery and fear she contemplates the coming event which even now is casting its shadow before in the way of many painful discomforts. The hope held out in these words simply means that childbirth has been turned into an event of thanksgiving and joy, stripped of its agonies and dangers because of the learned skill of man.

### MOTHER'S FRIEND

is the name of the remedy, which means so much to the expectant mother; she can apply it herself and find an improvement at once which will foretell the pain and suffering which it saves when childbirth takes place. The testimony of Mothers who have used it successfully will convince you; their words of praise are found in our book, "Motherhood." Send for it.

## CENTURY PEOPLE CONTINUE HOPEFUL

They Have Faith that Health Officials and Physicians Will Control Fever in Pensacola.

Special to The Journal.

Century, Fla., Sept. 12.—Rev. Mr. Rae, the pastor of the Baptist church here with the assistance of Rev. William Wagner of De Funiak Springs closed a protracted meeting of eight or nine days duration here a few days ago. Quite a number professed religion, and have been received into the church.

Our school building presents a very neat appearance, since being enlarged, repainted, fitted with blinds and a new fence.

Since the yellow fever made its appearance in Pensacola, and we are denied the pleasure of receiving our Journal in the forenoon, and having only every twenty-four hours, our little town has assumed a very quiet state. Every one seems to have confidence in the ability of the authorities, both local and state, to check the fever, and keep it away from Century, though some are apprehensive of danger from fever if a detention camp is really located so near us as Flomaton.

Mr. L. N. Strickland with wife and infant daughter have just returned from Columbia, S. C., the home of Mrs. Strickland, where she has been visiting her parents for the past two or three months.

The big mills are running steadily. The merchants all seem to be doing a profitable business. Corn, potatoes, cane and peas, are plentiful and hog claims are more numerous in the river swamp, than usual, insuring a supply of hog and hominy for another season.

#### Fractional Relatives.

"And have you any brothers and sisters, my little man?" asked the kind old lady.

"Yes'm," replied the little man. "I got one sister and one and a half brothers."

"What?"

"Yes, sir; two half sisters and three half brothers."—Philadelphia Press.

#### An Impression of Toil.

"Why don't you go to work?" asked the man who is philanthropic, but practical.

"Mister," answered Plodding Pete, "I have to answer dat question so much dat it's gittin' to be jes' de same as work."—Washington Star.

#### Poor Thing!

"What a discontented, dissatisfied look Mrs. Fullerton has!"

"Well, what could you expect? She has a husband who gets her everything she wants."

#### American "Gullibility."

Americans in spite of their reputed shrewdness are the most easily gullible of any people on earth by those who know how to get at them.—London Truth.

## LOCAL PUBLIC IS APPEALED TO FOR AID

Citizens Meet and Call for Aid, as Five Thousand Dollars Must Be Raised.

At a joint meeting held yesterday afternoon at the city hall the following was issued:

To The Public.

Pensacola, Fla., Sept. 12, 1905. A joint meeting of the citizens' committee appointed at a meeting of citizens held upon the call of the Mayor on the 11th, instant, and a special committee of the Chamber of Commerce, was held at the city hall today.

By resolution, unanimously adopted, the secretary of this joint meeting was directed to address an appeal to the citizens of Pensacola to lend their individual and collective co-operation to the state and city health authorities by providing funds necessary to clean the city, to make systematic war upon mosquitoes throughout the city and to care for the indigent sick of the community.

Five thousand dollars will be required for these purposes, and if the amount is forthcoming without delay the fever can, and the authorities in charge believe, will be eradicated from our midst by the early days of October. If the mosquito is not destroyed by fumigation and other artificial means; if the breeding places of the stegomyia throughout the city are not destroyed, in short, if our city is not immediately and effectually placed in perfect sanitary condition, the only hope left to it for freedom from its present plight is nature's remedy—Frost.

That the indigent sufferers of any civilized community must be cared for requires no commentary from a citizens' committee.

The following committee was appointed to solicit subscriptions to this fund: William H. Knowles, Mayor C. H. Bliss, President of the Chamber of Commerce John E. Stillman, Sol Chan and Secretary of the Chamber of Commerce W. C. Jones.

Mr. Philip K. Yonge, was elected treasurer of the fund.

Now is the hour of our city's greatest trial in years, now is the time for a demonstration of the civic pride of her citizenship, therefore, let the citizens of Pensacola, the public spirit of the city, the men and women of Pensacola, who love their city and their home, generously respond with their means, not permitting tomorrow's sun to set without providing this necessary fund, which will be judiciously and honestly expended to stifle and destroy the yellow plague now afflicting our people and destroying our commerce; and for the alleviation of the afflicted indigents in our midst. The above named committee will call upon the citizens immediately.

W. C. JONES,  
Secretary.

A little life may be sacrificed to a sudden attack of crop if you don't have Dr. Thomas' Electric Oil of hand for the emergency.

#### Why They Have No Hats.

The boys of the "bluecoat school" of Christchurch hospital, England, do not go hatless as a correspondent intimates, in order that the hair on their heads may grow more abundant from that exposure to the air and elements of rain and sunshine.

The reason the boys of this famous school go without their hats is that one day a very long time ago the bluecoat boys were out walking and met Queen Elizabeth. They neglected to remove their hats, which so incensed the imperious lady that she had their hats taken away from them and swore that they should have hats no more.

It is a fact that men who attended that school did not in their later years become bald.—New York Times.

#### Whiskers and Weather.

Do whiskers grow faster in hot weather than in cold? The correct answer to this question is, "They do."

Barbers say that there is an increase of about 20 per cent in business during the extremely hot spells and that all this increase comes from the men who habitually shave every other day instead of once a day. Although hot weather makes more business for the chin polisher, they do not particularly welcome it. Men are always more irritable and harder to shave. This, coupled with the increased speed of execution, makes the whole business unsatisfactory for both the shaver and the shaven.—Kansas City Journal.

#### Keeping Up Appearances.

An extraordinary amount of money in London is wasted on keeping up appearances, says the Ladies' Field. A number of people entertain lavishly, have a big house, imposing carriages, three men in the kitchen, the same number of footmen to support the butler, and yet the daughters of the house never have 5 shillings to spend and have to calculate whether a new pair of evening gloves can be afforded.

## WORK ON KEY WEST EXTENSION

INTEREST OF THE RAILROAD WORLD IS CENTERED UPON THE PROGRESS OF THE WORK.

The Jacksonville Times-Union says: Over the waters of the Atlantic and the Gulf and across the Florida Keys, the Key West extension of the Florida East Coast Railway is steadily advancing.

Great interest is being taken in the progress of this work, not only in Florida, but all over the country, for the work is one of such magnitude that the entire railroad world is watching it and making notes of the manner in which obstacles are being overcome.

As Miami is the recognized headquarters for the work on the extension, the following items from last Friday's edition of the Miami Metropolis, will prove of interest.

"Information from the extension operations is that nearly five miles of roadbed have been graded on Key Largo, which is about one-fourth of the distance to be traversed on this key. Three hundred hands are engaged, and they are making rapid headway considering the land and other obstacles to be contended with. Practically all of the work now being done is on Key Largo, though a boring party is operating on Knights Key, making soundings to determine what foundation will be necessary for the building of the road across it.

"A large new warehouse to facilitate accommodations for material and supplies at the shipyard, south of the terminal dock, is now under course of erection, and will be up and ready for use in a few days.

"General Superintendent R. T. Goff of the F. E. C. Ry., came down this morning in his private car attached to train No. 99, and went down on the extension on a tour of inspection.

"The tender Mystery with Paymaster Barrett aboard left this morning for the extension operations, to distribute wages among the several hundred workmen engaged there.

"The dredge Prickly Heat is being provisioned and supplied to-day preparatory to being towed to the key either this afternoon or to-morrow by the tug L. H. Pelton, where it will assist in the dredging operations now being pursued there. The Prickly Heat, though one of the smallest dredges that will be used in this work is one of the most capable in the service."

Don't delay a minute. Cholera, infantum, dysentery, diarrhoea come suddenly. Only safe plan is to have Dr. Fowler's Extract of Wild Strawberry always on hand.

#### NOTICE.

Until further notice we will close our store daily, except Saturdays, at 5:30 p. m. Our patrons will please be governed accordingly.

EAST HILLS GROCERY CO.

#### New Suit Filed.

The following new suit was filed yesterday in the office of the clerk of the circuit court:

Geo. W. Pryor & Sons vs. W. H. Smith, attachment, damages \$300; Sullivan & Sullivan, attorneys for plaintiffs.

Scratch, scratch, scratch; unable to attend to business during the day or sleep during the night. Itching piles, horrible plague. Doan's Ointment cures. Never fails. At any drug store, 50 cents.

## A FEMALE DANIEL AT PORTLAND FAIR

Woman on Trail at Lewis and Clark Exposition Makes Wild Beasts Do Her Bidding.

Portland, Ore., Sept. 12.—This city has a female Daniel. The woman appears to be devoid of fear, and this has made her a valuable acquisition to George Jabour, whose Trained Animal Show on the Trail at the Lewis and Clark Exposition has proved one of the most popular attractions at the Western World's Fair.

The female Daniel—no one seems to know her other name—enters a den of lions several times a day, and drives the great beasts before like cattle. Then, on the stage, which is enclosed by an iron cage, she makes the beasts go through a series of maneuvers that must be most humiliating to them. And then, as the finale to a wonderful exhibition, the woman forces open the jaws of the largest lion and puts her head into the beast's wide-open mouth.

There are a lot of other interesting features in Jabour's show, notable among which are the trained seals. The seals are awkward beasts, stupid in appearance, but they are good actors. They shoot guns, juggle balls, climb ladders, and finally play on various instruments. As musicians the seals are not an entire success, their musical sense being as yet not completely developed, but they make as much noise as any band, and their enthusiasm makes up for the discomfort of a few discords.

All kinds of people come to see the animal show, and every one likes it. It is entirely different from any other attraction on the Trail.

## NO NEW CASES AND ONE DEATH

(Continued from First Page.)

Fla., is among the physicians of the state to offer the local physicians assistance in handling the disease. Dr. Porter received a letter yesterday from that gentleman, and in his reply stated that he would be welcome to Pensacola to assist in the work.

#### Ready for Patients.

The ward at the hospital, which has been provided for yellow fever patients, has about been completed, and is now ready for their reception. The screening of the ward has been under way for several days. This expense is being borne by the city.

#### Regulations Satisfactory.

As usual the state health officer received yesterday communications from persons outside the city limits relative to the quarantine regulations. The communications, however, which reached him yesterday, were commendatory, and are as follows:

"Pensacola, Fla., Sept. 12, 1905.

"Dr. Joseph Y. Porter, State Health Officer, Pensacola, Fla.:

"Dear Sir—We understand that some parties have in circulation a petition asking that persons be allowed to pass to and from the city. We, the undersigned, respectfully petition that you do not allow any such action, and assure you of our hearty support.

"Respectfully,  
"W. J. Shiver, J. F. Holton, J. H. Pitts, T. J. Pitts, H. K. Bailey, G. W. Helton, A. I. Campbell, F. J. Milton, E. Bailey, J. C. Walker, J. R. McNair, J. M. Campbell, R. H. Miller, W. E. White, W. H. White, T. E. White, A. A. White, Bert Pratt, Leonard Nichol, H. Nichol, H. C. Miller, Chas. A. Daw, James Cravey, Milton Cravey."

Petition No. 2.

The second petition received by Dr. Porter is as follows:

"Pensacola, Fla., Sept. 12, 1905.

"Dr. Joseph Y. Porter, State Health Officer, Pensacola, Fla.:

"Petitions are being circulated, asking that you allow the passing of persons to and from Pensacola. We respectfully request that you do not grant such a request, and assure you of our hearty support in the carrying out of the quarantine regulations.

"Respectfully,

"W. A. Lanton, Hines Cravey, H. Stokes, Jim Pressley, E. J. Williams, A. J. Cushing, E. G. Brewton, J. N. Brewton, J. A. Wise, J. F. Handrop, B. Brewton, B. Nix, John Roberts, W. H. Lewis, W. H. Helton, W. Miller, D. W. Malone, A. L. Helton, A. Villar, W. M. Silver."

LEWIS HOUSE CLOSED.

The Lewis House, opposite union depot, will be closed until quarantine is lifted.

MRS. W. J. CASTELLO, Proprietress.

## Ministers, Doctors and Temperance Workers

Use and Recommend Duffy's Pure Malt Whiskey as the Only Effective Cure for Lung, Stomach and Nervous Diseases.

"I THANK GOD THERE IS SUCH A MEDICINE," WRITES REV. DR. McLEOD, an active minister for 50 years. "For more than 40 years I had been afflicted with dyspepsia and nervous prostration. At times I was so run down I could not attend to my ministerial duties. Could neither eat nor sleep. I began taking Duffy's Pure Malt Whiskey. It gave me strength, helped my digestion, settled my nerves, and I gained 10 pounds in one month. I recommend those who are weak, broken down, nervous, to take 'Duffy's.'—Greenleaf, Mich., January 22, 1904.

DR. ROWNE PRESCRIBED "DUFFY'S" 25 YEARS. "I have found that in pneumonia, grip and other exhausting diseases my patients never fail to respond favorably to Duffy's Pure Malt Whiskey. Taken as directed it is bound to relieve and permanently cure consumption." Dr. E. H. Bowne, Kingston, N. J., Aug. 8, 1904.

MR. THOMAS MORAN, TEMPERANCE WORKER, SAYS:—"I have lived in Rochester, N. Y., for almost 70 years and people know I am a strict temperance man, but I unhesitatingly recommend Duffy's Pure Malt Whiskey for the great good it did me during my illness. Two months ago I was so weak from bronchitis I could not raise my head. I had a low fever and all the symptoms of a relapse. The doctor ordered my whiskey, and I would not be living to-day but for its use. It made me strong, vigorous—better than I have been in years." July 26, 1904.

For over half a century men and women prominent in the affairs of the nation have been using and endorsing Duffy's Pure Malt Whiskey as the one certain cure and preventive of disease. The opinions of a few of them are published in a booklet which we mail anyone free on request.

The unrivaled record of this splendid medicine is over 4,000,000 cures. More than 7,000 doctors use it in their homes and prescribe it regularly in their practice, and it's used exclusively in over 2,000 hospitals. It's an absolutely pure distillation of malt, scientifically combined with medicinal ingredients of highest quality. It acts directly upon the diseased organs and parts in a natural manner, and strengthens and builds up the entire system. It contains no fusel oil. Every testimonial is published in good faith and guaranteed.

CAUTION.—When you ask your druggist or grocer for Duffy's Pure Malt Whiskey be sure you get the genuine. It's the only absolutely pure medicinal whiskey, and is sold in sealed bottles—never in flask or bulk. Look for the trade-mark, the "Old Chemist" on the label, and make sure the seal over the cork is not broken. Price, \$1.00. Duffy Malt Whiskey Co., Rochester, N. Y.
